Databases: PostgreSQL, MongoDB, Supabase (also: MySQL, Firebase)

Tools: Prisma, Git, GitHub, Figma handoff, code review

WORK EXPERIENCE

Full Stack Developer | Cereble Robotics Private Limited

Aug 2024 – Aug 2026

- Built and maintained a shared component library for React and React Native, giving web and mobile teams one consistent design system and cutting repeated UI work on new features.
- Converted Figma designs into pixel-accurate, responsive, accessible interfaces with React, React Native, and Tailwind CSS across web and mobile.
- Developed REST APIs in NestJS/Node.js, including business logic, JWT authentication, role-based authorization, and request validation.
- Designed PostgreSQL schemas with Prisma and optimized slow queries to improve API response times.
- Integrated frontend clients with backend APIs and managed client-side state, delivering features end to end across both teams.
- Reviewed pull requests and maintained shared repositories on GitHub to keep code quality consistent.

MERN Stack Developer | Swasti DataMatrix Private Limited

Feb 2024 – Apr 2024

- Built a market research platform with Next.js, Node.js, Express.js, and MongoDB.
- Improved search visibility and first-load performance through SSR and SEO optimizations.
- Secured REST APIs with JWT authentication and role-based access control.
- Designed and implemented a custom CMS module for managing platform content.
